

Home page- Follow the brand guidelines, color coding and font formats

- Hero Banner in the website needs to be a carousel image ideally 4-5 images covering 3/4th of the home page. Can search for free images (we do not want any copy right issues)
- The menu site on the current website could be referenced to <https://www.boodles.com>
- The next set of icons depicting the “technology, politics science” etc need to be redesigned as Icons and the font need to “Roboto” and consistent.
- Margin area in content needs to be central aligned. The site needs to have consistency.
- Centre align - Hot/new/popular/feature (Refer boodles for this)
- Color needs to be consistent on the brand guidelines, central aligned and evenly spaced out.
- Same length of the features need to be there.
- Delete Myawaaz in numbers. Just show the numbers. (Font needs to be consistent)
- See the drop down menu of Cartier Jewellery brand
- The heading for each of the section needs to be one-worded.
- The strip in the end needs a lot of work.

Feedback needed on Font size:

What should be the font size of the captions, menu, body and footers.
